

ACC9 FINANCIAL SOFTWARE

Air Cadet League of Canada Ontario Provincial Committee

Instruction and Guidelines

NOVEMBER 2014 EDITION

What is an ACC9, and what does it do?

The ACC9 is an Excel document, specifically designed to assist SSC's with the financial management of their squadron.

- Correct and regular updating will keep Treasurer's 'on track' and within their budget.
- Bank accounts should always be reconciled.
- Cash flow should be monitored
- Investment activity is recorded.
- Federal and Provincial HST rebates are calculated.
- Fixed assets are recorded at cost.
- Current financial statements are available.
- The budget planner assists with planning for the upcoming year.

- All uncleared cheques from the previous year have been listed on the DATA SETUP sheet in the GREEN shaded area. As they are cleared, they should be deleted.
- Any uncleared cheques from the previous year have not been re-posted on the **EXPENSE** JOURNAL.
- Ensure all bank charges and direct debits are included.
- Ensure all transfers between accounts have been posted on both **REVENUE** and **EXPENSE** JOURNALS.
- Check that the correct account has been selected for each transaction.
- Double check that all items have been reconciled.
- If the bank is not reconciled, do not proceed to the next month until resolved.

If the *DIFFERENCE* cell has a number higher than \$5.00, your ACC9 is **NOT** balanced.

BALANCING THE ACC9

Total Assets and *Total Liabilities Plus Equity* MUST equal zero on the Balance Sheet (an integer rounding sum of up to \$5.00 is permitted).

The ACC9 is based on cash accounting, no Accounts Receivable or Accounts Payable should be recorded; however uncleared cheques and deposits issued or collected prior to August 31st should be included on Revenue and Expense Journals and will show as unreconciled items.

What causes the ACC9 to be unbalanced?

- Incorrect balances picked up from previous ACC9's
- Transfers between accounts not recorded in both journals
- Previous year's uncleared transactions not reconciled or recorded twice
- Investments, reinvestments and interest not recorded correctly

How to prevent an unbalanced ACC9:

- Ensure that all transactions for every account are included
- Record transactions regularly
- Balance the bank monthly
